

# Temperature Sensing Patch

Wearables.

## Customer benefits:

- High tack of the adhesive to skin to ensure a strong bond immediately after application
- Double-coated tapes with a PET carrier act as a barrier film to protect the skin from the printed electronics
- Insulating function of tapes with foam carrier against external / environmental factors such as temperature and water
- Good shear resistance of the adhesive to prevent movement of the patch

## Products:

- DuploMED® 45300 / Tape with fabric carrier
- DuploMED® 22260 / Flexible tape with foam carrier and medium adhesion
- DuploMED® 22262 / Flexible tape with white foam carrier and medium adhesion
- DuploMED® 20285 / Flexible tape with white foam carrier and medium adhesion
- DuploMED® 8411 / Double-coated tape with PET carrier
